FOR IMMEDIATE RELEASE-

New York State Awards Data Storage Contract to Storage Engine Inc.

TINTON FALLS, NJ, November 17, 2004—Storage Engine, Inc., the innovative high performance provider of many fault tolerant enterprise data storage and document imaging solutions, today announced it has been awarded a data storage contract by the Office of General Services, Procurement Service Group for the State of New York, USA.

This contract award will make it easier for New York State Contract users to procure Storage Engine's innovative and cost effective SAN and/or NAS, iSCSI storage, Virtual Tape Libraries (VTL) and Disaster Recovery products and services without a lengthy bid cycle.

Storage Engine, we accelerate information access.

About Storage Engine

Storage Engine, Inc., is an innovative high performance provider of data storage solutions and document imaging solutions for enterprises and departments that serve a wide range of business and government markets along with a wide range of other services to enable the capture, tracking, storing, sharing and utilization of information assets safely, with compliance, cost effectively.

Storage Engine competes and/or compliments other vendors including EMC (NYSE:EMC), Network Appliance (NASDAQ:NTAP), HP (NYSE:HPQ), Dell (NASDAQ:DELL) and other open system storage providers. Trademarks mentioned herein may be trademarks and/or registered trademarks of their respective companies.
